GROWERS OF QUALITY NURSERY STOCK

WALTER F. STEIN & SONS

Wrightsville, Pa., R.D. No. 1

March 1952

Dear Customer:-

With the coming of Spring, one's thoughts naturally turn to planting—to the improvement of our home grounds and orchards, adding to the joy of living.

It is not our wish to have a tremendous business, but we are anxious to keep every buyer as a regular customer and make each transaction not only profitable, but enjoyable to both of us.

We are not issuing a new catalog for 1952. This saving we can pass along to you by giving you carefully grown nursery stock at reasonable prices. If you do not have our latest catalog (the one with blue cover) we will gladly mail you one upon request.

Whatever you need, write us or call at our office (phone Wrightsville 52R13) and we will be glad to help you with your problems. If your order is large or small, we welcome it and assure you individual attention and service.

If you will kindly let us have your order as early as possible, we can reserve the stock you want until proper planting time.

Your business in the past has been greatly appreciated, and we are looking forward to equally as pleasant relations during the coming season.

Very sincerely yours,

Walter F. Stein
